«Together for Health»

European partners:

- *UK - College of West Anglia*
- *POLAND - Zespół Szkół w Chełmży*
- *ROMANIA - Liceul Teoretic "Nicolae Balcescu"*
- *BULGARIA - Vocational High School of Veterinary Medicine*

Topics:

- Health and wellbeing
- Early School Leaving/preventing failure in education
- New innovative curricula/ educational methods / development of training courses

THE KEY OBJECTIVE:

'HEALTHY life' Project is to raise attainment across all partner schools.

THE KEY EXPECTED RESULTS are increased knowledge, skills and awareness amongst all participants of how healthy life, education, poverty, and employment are closely linked. These results will lead to improved motivation, ambition, European citizenship and indirectly to improved employability of the participants.

UK - The College of West Anglia has a high quality vocational catering provision, with highly qualified teachers, and will engage students from all partners in developing a "Healthy Menu". Collaboration with expert external dietary nutritionists will guide the student Menu to achieve maximum healthy outcomes. Each visiting partner will be taught how to create the dishes for dissemination on a joint EU "Healthy Life" day.

POLAND - Zespół Szkół w Chelmży has a pedagogical team composed of teachers of various subjects, strictly connected with the topic: English, Biology, Chemistry, vocational subjects and sport. The team will be in charge of the delivery of some lectures concerning healthy habits and obesity prevention.

ROMANIA - Liceul Teoretic "Nicolae Balcescu" involves a team with Biology, Social Sciences, Chemistry, PE and Languages teachers who intend to approach topics as nutritional, occupational, professional and emotional health.

BULGARIA -Vocational High School of Veterinary Medicine has a well-established team of teachers with many years of experience in the development and implementation of EU-projects. The management team of the project includes: principal, coordinator, vocational subjects teachers (veterinarian), Physical education, Health, Biology, Chemistry, IT&C, experts from Food Safety Agency.

FRANCE - Lycee Leonard de Vinci will act as the coordinating school. The pedagogical team is composed of teachers of various subjects, directly in line with the project topic: Chemistry/Physics, library, Biology, energy, vocational subjects, sport.
